The less they know

East knew less than he thought. He can place West with at most six high-card points. No matter whether West has A-Q-10-9-x of hearts and no side entry or Q-10-9-x-x plus one entry, the defense can't beat 3NT with heart tricks.

Sudoku is a number-placing puzzle based on a 9x9 grid with several given numbers. The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once. The difficulty level of the Conceptis Sudoku increases from Monday to Sunday.
